

# QESD-15A

*Product overview*

**VOUGAVENT** 

# Smart way to analyze

## ESD performance of your product

QESD series is a handheld ESD simulator suitable for design validation and pre compliance, which supports test voltage from 500 V to 10 kV in 500 V steps. Our standard kit includes tips for Air and contact discharge as per the IEC/EN 61000-4-2.

The device is powered by Lithium Ion battery and can be recharged using a micro USB charge. The device have a simple user interface which make it easy to use.

The voltage level and polarity can be adjusted by button and advanced configuration can be modified in setting menu.

Discharge Voltage from  $\pm 0.5$  kV to  $\pm 10$  kV

Discharge Tip for Air and Contact discharge

One touch polarity change

Rechargeable Lithium Ion Battery

## Items included in package

**QESD-15A ESD simulator (10 kV)**

**Grounding cable**

**Air discharge Tip**

**Contact discharge Tip**

**Micro USB charger cable**

**Operating instruction manual**

**6 Months warranty**

**Optional: Horizontal Coupling Plane (Custom size)**

**Optional: Rugged Plastic carry case**

**Optional: Online Training via MS Teams or Zoom**

**Country of Origin : India**
